

ENERGY TRANSFER CRUDE
An ENERGY TRANSFER Company

1300 Main St
Houston, TX 77002
Phone: (713) 989-7000
Website: www.energytransfer.com

Energy Transfer is engaged primarily in the transportation, storage, gathering, processing, compression and treating of natural gas and the transportation, fractionation and storage of natural gas liquids (NGL). Energy Transfer, a Texas-based energy company founded in 1995 as a small intrastate natural gas pipeline company, is now one of the country's fastest-growing natural gas and natural gas liquids transportation companies. We own and operate a diversified portfolio of energy assets, including approximately 62,000 miles of midstream, intrastate and interstate natural gas and NGL pipelines.

DAPL-ETCO includes a 744-mile pipeline system that transports crude oil from the Midwest U.S. to a terminal in Nederland, Texas. Approximately 66 miles of new 30-inch pipeline was constructed and 676 miles of existing pipeline was converted.

For more information about local operations of DAPL-ETCO Pipeline, please contact us:

Crockett, Dyer, Fayette, Haywood, Obion & Tipton counties:

Tony Couch, Operators Manager
