

**EMERGENCY CONTACT:  
1-800-447-8066**

TransCanada operates one of the most sophisticated pipeline systems in the world. Our network of more than 37,000 mi. of wholly owned and 4,847 mi. of partially owned natural gas pipelines connect virtually every major natural gas supply basin and market, transporting 20% of the natural gas consumed in North America.

You may obtain access to view maps for TransCanada / ANR Pipeline Company facilities by following the instructions at:

[Http://www.npms.phmsa.dot.gov](http://www.npms.phmsa.dot.gov)

For more detailed information on TransCanada's ANR Pipeline facilities, please contact the local pipeline company office in your area.

Call 811 before you dig.**

## TransCanada / ANR Pipeline Markers and Signs

### Right of Way Signs

A. Pipeline Markers are placed along the Right of Way, at Road Crossings, at Railroad Crossings and where each pipeline enters or leaves a fenced facility. Any one of three types of markers shown below is located above and near the pipe centerline.

- Marker signs may be attached to fence posts or to facility fencing.
- Marker “bullet” post may be placed over metal fence post or stand alone.
- Marker “slat” post may be used in lieu of either above marker type.

MARKER SIGN

MARKER "BULLET" POST

MARKER "SLAT" POST

### Facility Markers

B. Shown below are 3 & 1 Danger signs that are located along the perimeter of gas facilities, and at roadway entrance gates. These signs are to warn visitors and inform Emergency Responders of high pressure natural gas precautions.
